Testing – User Stories

- As a user I want to view the site from any device (mobile, tablet, desktop).

  I am able to view the site on mobile, tablet & desktop. I have tested this on mobile & tablet devices as well as on DevTools.

- As a user I want to see the products without login.

  Without logging in, I am able to view top selling products on the home page. By selecting the 'Products' dropdown, I can navigate to 'Energy Products', 'Nutrition Products' or 'Sports Drinks' to view the selection of products.

- As a user I want to create my account.

  In order to create an account, I can click on the 'Register' option under 'My Account'. I am then prompted to enter an email address, username and password. A verification email will then be sent to my email address. Once I click on the link, my account will be confirmed.

- As a user I want to view my profile.

  As a user, I can click on the 'Profile' option under 'My Account'. There I will find my phone number and address, as well as an 'Order History'.

- As a user I want to update my profile.

  As a user, I can update the information in my profile. I can then save this by clicking the 'Update Information' button.

- As a user I want to login and logout.

  As a user, I can Login by clicking on the 'My Account' dropdown and selecting the 'Login' option. I will then be prompted to enter my email and password to login. In order to logout, I can click on the 'My Account' dropdown and select 'Logout'. Once I have selected that, I will be presented with an 'Are you sure you wish to sign out?' message. If I select 'Sign out', I will be logged out.

- As a user I want to filter the products based on category type.

  In order to see products filtered by category type, I can click on one of the category options under the 'Products' dropdown on the home page. They are 'Energy Products', 'Nutrition Products' and 'Sports Drinks'.

- As a user I want to search for a product.

I can access the 'Search' option at all times from the website navigation bar. Typing a search term in here gives me the option to search for a product.

- As a user I want to be able to see the product details.

  If I wish to see the product details, I can click on the product on any of the category product pages. This will bring me to a product detail page where I can read a detailed product description.

- As a user I want to be able add product to my cart and remove if I change my mind.

  I can add product to the cart from the home page by clicking on the 'Add to bag' button underneath the product. I can also select 'Add to bag' from the product detail page and can vary the quantity added by clicking on the +/- buttons in the quantity input option. To remove products from my cart, I can click on the 'Shopping cart' icon in the top right of the page. This will take me to the Shopping Bag page. There I have the option to remove items from the bag.

- As a user I can view my order summary before checkout.

  To see order summary before checkout, I can click on the 'Shopping Cart' icon on the top right of the page, that page will give me a summary of the items I have added to my cart before checkout.

Testing Check List

Navigation bar	Mobile	Tablet	Desktop	Large Desktop
Hamburger appears to mobile & tablet	Y	Y	N/A	N/A
